

Hello 2019 and here is the re-launch of the Ladies Race Reports.

2018 finished on a real high for us, coming 2nd in the Dorset Road Race League which is a great achievement as there is a lot of very fast competition out there from other running clubs, so well done to all of us for turning up and running our very best at these races. The Broadstone Quarter marathon took place on the 1st January 2019 which was the first DRRL race of the year and despite it being "the morning after" run, we still managed to have 7 ladies there which are listed below. It is also the Awards Ceremony for the DRRL year and we also took a few Age Category prizes as listed below.

We currently stand at 6th position out of the 7 teams in division 1 (as do the men!) but i'm sure as the year goes by we will creep up and be the very best we can. So come on ladies lets get these races entered. Details of all the DRRL races are on our website, but be warned that they now fill up very fast.

10th February, Lytchett 10 and 24th February Bournemouth 10 are the next races, but I understand they are both now full, so check the list and get yourself into the other races so that we can ensure a great turnout and keep our orange flat flying.

To finish off, I once again point out that if I have made any errors in this report, or you wish to be included in reports from races outside the Club Championship or DRRL, then please email me at hebbykhosh@live.co.uk

Thats all for now...keep happy...healthy and running
